

DIY SECTION THINK INDIA MNIT

RECRUITMENT

TASK

Statement:- Your task is to design a single page which we expect to have following things.

- A navigation bar with at max 4 buttons which can be linked to any website as per your wish but there should some link.
- An about you section with something about you and there should be your image circle cropped and should be properly aligned.
- A skills and hobbies section in which you will mention your skills and hobbies in a form of table.
- A footer with links to your social media profiles.
- Host your website on GitHub and send it link to us.(By link mean your website url not your Github repository link).

Note:-

- Your website should be responsive and you should use media queries.
- Do not use bootstrap for navigation bar

- You can use CSS properties and colours as per your wish.
- There should be proper padding and margin wherever required.
